“ I enjoyed working with Chuck at the Rock Island Hydro Facility from 2013-2022. He was always eager to help me investigate circuits that I was working on. He was a lot smarter than he let on. He liked giving me a hard time about things and I would try my best to give it right back, but he was always one step ahead of me. He was a great friend and I will miss him.

“ A photo is worth a thousand words is what I've been told. Chuck you were an incredible kind, loving, fun and wild spirit; I'm missing you big time my friend. Thank you for teaching my son Julian gun safety and that getting a perm if that's what he wanted to rock it (the support you gave him about getting it done is something he will forever remember). Making fresh handmade tortillas at Shawn and Shelly's, visiting your brother Phil and Sister Jen with the kiddos when they were out camping that one time, celebrating Lydia on her 18th birthday and High School graduation, hanging out with Kaleb when he showed Julian a little bit of archery and hanging out all of us together on family dinner nights are just a few of the wonderful experiences we had together. You had a huge impact in my life and my family's life. I'll forever miss you and have love for you Chuckie.

♥♥ rest in paradise ♥♥
