“ *The family here in Wisconsin/Minnesota are all very saddened to learn of the passing of Cousin Fred. It's a little more personal to me as Fred and I are the same age. I first met Fred when he came into my hospital room in Wenatchee where I was being treated. We were 15 at the time and looking back I just remember his kindness in reaching out to me in that way. I spent another week at his house that summer and we quickly found common interests like cars and the pop music of 1965. After that our paths in life did not cross too many times again.*

Fred visited our family in Wisconsin and Minnesota a year or so ago and we had a great conversation about the meaning of life and the importance of a relationship with Jesus Christ. We now have that in common as believers in Christ. We have the hope, which in reality is a promise that we will be together again, but not in this world. I am very grateful for that.

“ *I attended Malaga School with Fred. It was a small school and everyone attended church together, school sports and dances, hayrides, and it was a great place to make friends and fond remembrances. I'm sorry for your loss. I know he will be missed.*

“ *I was shocked & sorry to hear of Fred's passing. I've known Fred for at least 40 years through my work at Valley Auto and running the automotive program at the college and he was a wonderful man. I am so sorry for your loss. He will be missed.*
