

Geraldine "Geri" Berg

September 12, 1929 - August 29, 2023

Geraldine (Geri) Berg, 93 went home to be with her Lord and Savior on August 29, 2023. She passed peacefully at her residence in Leavenworth, Washington.

Geri was born in Seattle, Washington to Herb and Grace Eden on September 12, 1929. She graduated from Queen Anne High School, class of 1947. Shortly thereafter, Geri married Donald (Don) Berg. During their marriage, they were blessed with three children, Sharon, Steven (Steve), and Bruce Berg.

Geri devoted her early adult life to raising her three children. She later pursued positions in the medical field. She worked directly with family physicians and later at Ballard Hospital.

Seattle was Geri's primary residence but later in life moved to Edmonds, Washington near the waterfront. She loved the beach and enjoyed walking the Edmonds beach two or three times a day. Walking the path along the Edmonds Marina with Puget Sound and the Cascade Mountain Range as a backdrop was her special place. She never grew tired of the beauty and the many friendships she developed in Edmonds. At home, nurturing the many plants on her deck was also a lifetime love.

Geri was a member at Calvin Presbyterian Church in Shoreline for many years. She loved worshipping at Calvin and building relationships with the members and staff.

Geri will be remembered by her youthful and active family participation, her love for her children, grandchildren, family, and the many friends she made throughout her life. She had an infectious smile and warmth that will be etched in our memories forever.

Geri was preceded in death by her parents Herb and Grace Eden, Cecil Brotherton, and her brother Douglas Eden.

Geri is survived by her daughter Sharon, son-in-law Perry Dain, son Steve Berg, Heather Patrick, son Bruce Berg, daughter-in-law April Berg, grandsons Bryan Berg, and Donald Dain, and many nieces and nephews.

A Celebration of Geri's life will be announced at a later date.

Remembrances to: Alzheimer's Association, <https://www.alz.org>

JB

“ I don't know if this is a favorite memory of Aunt Geri, I have many, but this one comes to mind right away:
My family and I visited her one summer in the 1970s. She had a record playing when we arrived--it was Elton John's Goodbye Yellow Brick Road album. That she was open to music dating from after her youth is just one example of what a cool person she was. I admire her a great deal. She was fun and funny, a delight to be around and always kind to my family.
