“ I worked with Joan at Mount St. Vincent's in the kitchen for five years but knew her much longer. She was always so dependable at work up in our kitchen and would help out in any way when we were short staffed. She was so loved by the residents that came thru the tray line in the cafeteria and had so many other employees she called friends. She told me when I hired her son, Robert, as part of the after school staff, to "keep him in line and tell me if he gives you any grief". After several months of not getting approached by me regarding Robert, she approached me. She asked me, " is Robert doing ok at work because you never mention anything to me." I reassured her and told her truthfully, "Joan, Robert's one of my very best employees, I wish I had a few more "Robert's" on my staff. Joan reacted with a big smile and a few tears in her eyes. I told her, "Joan, kids are always different at home but when he's at work, he's a gem." She gave me a hug❤️ My sincerest condolences to her children , Denice, Robert and Daniel.
Most sincerely, Audrey Daum
