“ *Dear family of Joe Pat. My name is Foster Copeland and I have known him since the sixth grade in the Entiat School. I have many memories of Joe during our years of attending school. We both played in the band. I especially remember one night when Entiat was playing Mansfield in basketball. Joe had formed a little band and we had crammed his 39 La Salle with band members and instruments. We took the Orondo Ferry across the Columbia River but had great difficulty going up the bank on the other side. We arrived in Mansfield and were met by a full gymnasium of local fans and began to play. They absolutely loved us. I can still see and hear those people showing their appreciation. It was a good night for the band and our team.*

Joe was a talented drummer. Often when the main band was playing a concert at school our music teacher would ask Joe to perform a drum solo. They really loved him.

I am so grateful for the times that you made happier. Sleep well Joe Pat. May God be kind and gentle to you as you fly, fly away

"I am the resurrection and the life. If you believe in me even though u die, you shall live forever" John 11-25

Joe I want to thank you for the memories of which there were many. They will never leave.
