“ I remember going fishing with my grandpa for steelhead one time down at Lyons Ferry we would go out really early in the morning and I would sleep in his little bed. I remember grandpa let me use his pole and instead of a steelhead I caught a king salmon that put up a really big fight. Everyone helped real it in because I needed help and when grandpa picked it up out of the net so we could take a picture with it, It smacked him in the face with its tail. I remember grandpa or someone saying well that was a sloppy kiss. I am going to miss all of his stories about fishing; even the ones that we hear hundreds of times.

“ Our last visit with grandpa consisted of KFC, gardening, tractors and a hundred bunnies singing and dancing! Grandma said she keeps the bunnies for the kids but Grandpa and I caught her dancing and singing. Grandpa grew the best candy cherry tomatoes, we ate so many we almost got a tummy ache. He got all his tractors out for Andrew and let him ride each one. He still talks about it even though he wasn't even 2 years old! Some of my favorite memories growing up were the pool parties and at night sometimes he would turn the colored lights on for us to swim with. I always admired the way he could recycle things and repurpose them into something functional. Like the camper pool house and my all time favorite the satellite dish pond! I was really hoping to see him one last time this June. It's hard being far away, I feel like I missed so much but I know he knew my heart and how much I loved him. Until we meet again someday, I will cherish the memories we made.....

“ Hi All -

We are all still reeling from the loss of our Dad. We are hoping you will all share stories and photos if you have them. We looked through Dad's photos and there are so many, but he was always behind the camera so not very many with him in the frame. We miss him dearly and are looking forward to sharing your memories as well as ours together. Hope to see you all at the services on the 23rd.

“ *Mary Ann, JoAnn, Laura, Marie- but also Ruth, Linda, Jessica, Scotty, Lisa-*

It doesn't make sense that there is no Joe to see out working when driving past, no Joe in his chair when coming to visit. Joe has been our neighbor since before i was born. I shall miss him every time i look at the house. He knew how to be a father to daughters and a grandfather to everyone. And he was a good friend to my Dad. It is like an earthquake when someone you have known your entire life dies.
