LM

“ I grew up in Peshastin and was one grade below her but lived on the other side of town as they say the other side of the tracks as her. All of those past years that I had knew her she had a smile that could light up a room especially when she told a great joke to tell. My deepest sympathy for the family losing a significant other,mother,grandmother,great grand mother and friend. Julie you will be missed surely missed and fly with the angels my friend and I know you are in heaven smiling and enjoying the company of your loved ones.
