BK

“ I worked with Lesli for many years on the Mt. Adams Leadership Conference staff, and I'm so sad to hear of her passing. What a great loss for the students and families of the Leavenworth area, and the entire state of Washington. Lesli was our "mother angel" on staff, always ready with a word of encouragement, a fresh idea, and her ever-present smile. She supplied us with art supplies and helped many of us decorate our picture frame gifts for our junior counselors. Lesli was soft-spoken and gentle, but also had a fearless confidence that radiated among our student leaders and energized our summer camp atmosphere. She was a role model for every leadership attribute we tried to teach at camp, and I'm sure her students in Leavenworth were touched by her love, her faith, and her selfless service to others. It was an honor to know her and serve with her. Brian Kesler, Lake Stevens
