“ I met Lois at Blossom Creek where my father in law was also. His name was Al Buchanan. He passed away on April 27th. I loved it one day when I walked in and Lois and Al were sitting on the couch holding hands and smiling at each other. I took a picture because they looked so happy. I always visited with Lois and admired her nice jewelery and great clothes. I loved her smile.

“ Lois was a very sweet woman. She read a letter I put in the Wenatchee World Safety Valve. She wrote me a letter which I still have. We talked on the phone several times, before she had her surgery. God Bless her and her family. Knowing she has no more pain, and is in a far greater place with her father is a relief. I am truly sorry for your loss!! May God wrap his loving arms around you, and help you through this time of sorrow.
