Tribute Wall

“ I worked with Matt at Alcoa during the 1970's. I had an uncle who was an electrician at Crown Zellerbach / Daishowa in Port Angeles. We often talked about fishing the strait, off the Ediz Hook and the San Juan Islands. Matt was an exceptional man. He offered sage advice that led me to purchase a Reinell B-267 in which I spent many days cruising the San Juans, crabbing and enjoying the water. I have the highest respect, fondess memories for him and I will miss him. He was a great man.
