

Michael "Mike" Earing

July 11, 1951 - February 1, 2025

Mike passed away at the age of 73 at his home on February 1, 2025, from a cardiac event.

If you were fortunate to know Mike, you got to listen to his many stories of being in the Navy after high school and helping Neil Newberry with his racing car after the service. If you knew Mike, you listened to his stories of RC car racing around the state of Washington in his early years. Stories were told of his racing slot cars and modeling.

Mike found his passion with mountain biking and helping with trailbuilding. Recently, he had been snowshoeing with family and his constant companion, Bo, his border collie. He also loved taking Bo for a mountain bike ride. They were inseparable.

One thing Mike did each week was make a point of checking in on his friends and family to make sure they were doing okay and didn't need anything. Mike was a wonderful husband, father, grandfather, great-grandfather, brother, uncle, and true friend.

Mike liked the simple things in life. There is so much more I can write about but if you knew Mike you already know. So at his request, there will not be a funeral. We will be having a Celebration of Life later this year. Please contact

his family for details.

We would like to thank the first responders, Fire Department, Police Department, EMTs, Chaplain, and Coroner for their help that morning. We also want to thank Heritage Memorial Chapel and Funeral Home for all their help. Everyone has been so compassionate and helpful in our time of need.

I will forever miss his stories.

Forever loved, greatly missed.

“ Mike was our brother-in-law. Our memories are more observations at how he was as a man. He took very good care of my Sister, the girls and grandkids and that was the most important thing. Plus our cat, who doesn't like most people, liked Mike. Chris and Neal

“ Mike and I were childhood friends growing up on Walla Walla street in Wenatchee. We would ride bicycles together almost every day. Many days we would ride down to the cycle and toy and race our electric cars on the track there. So many good times and memories of a great person. He will truly be missed. ... Tony Rose

“ This was after his car accident three years ago. He had a head injury that needed y too heal. The Girls started giving him crap because he wanted to go bike riding so soon after his accident. So he wrapped his head with bubble wrap to go mtn biking. I love this picture.
