WE

“ *Love is Green, you said to me, yet I did not completely see.*

To stand beside, to stand away, amidst the mists, the shades of green.

All the while, I knew you not, and all the while, I know you still.

I knew your inner self was love and you'd protect us from the rest.

How courageous was your feat. Your shield cast, your green eyes straight.

How joyous is your quest ahead, your King rejoicing as your Love blends.

A part of you will never leave the part of me who's known your Love.

With gentle heart, you've come to me, you've helped me to more clearly see.

This earthly life does surely blend, the color green will have no end.

Love is Green, you said to me, I've gained so much from you my friend.

I've played it now, three times for you, I understand, Loves is your soul! Love, Wendy

“ *May The Great Spirit bring peace to the family and loved ones and embrace our beloved Susan in eternity.*

I am not able to come to the service.

I am praying from the mountain tops and will forever more!

Gods Peace, Wendy
