“ I have only know Wanda for a few years. In that time I've enjoyed our visits together. We talked about world problems, the good ole days and her family and granddaughter which she treasured more than anything.

We made a few trips to Walmart together. She was an amazing driver on the cart. A little scary to watch but no one was injured. Just a few store items dragging behind. We always made a pit stop for a burger and fries before going home.

Wanda struggled with some physical limitations. She never complained and always had a positive and spunky attitude. I was always encouraged by her.

Wanda will always have a special place in my heart. I will miss her and think of her always.

“ I have known Wanda since 1961 when I married into the family. We remained friends for all these years even thou I moved to Seattle area. We tried to keep in touch once a month and saw each other quite a bit. We did a lot of laughing and some crying together. I would always walk away, thinking, what a strong lady she was. With all her challenges she remained positive. I will miss our time together but I know she is finally pain free and much happier. I will always remember her. Love Kathy

“ I have many fond memories of spending countless summers and weekends up at the trailer park in Lake Chelan.
Swimming in the lake to fishing on the dock with my grandpa and sleeping outside under the big tree down by the lake.
Getting a pie from the pie lady and ice cream at Pat N Mikes. She loved to watch Soap Operas and I always enjoyed sitting with her and watching them. She loved to can, I loved picking the raspberries, rhubarb and blackberries and we would can them or make pies together. I will miss her dearly and all the time we spent together.
